## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4,15-16,19,28-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Blazey'931.

Substantially for the reasons of record.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 10-14,17-18,20-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Blazey'931 in view of Hasenour'535, Simard'187, Schlegel'022,Heeg'945.

Substantially for the reasons of record. Simard'187, Schlegel'022 and Heeg'945 have been applied to show that it is a routine in the art to coat three-dimensional objects using state of the art coatings.

Applicants arguments and amendments have been fully considered. The claims however, remain unpatentable in view of the above rejections.
